SUCCESS METHODOLOGY

We have a unique, customized methodology designed to meet the special needs of busy professionals.

PRE-LESSON

Prior to each lecture, participants will receive a 30-minute audio pre-lesson covering key concepts.

FOCUS

During lectures, the instructor will focus on the most difficult concepts.

READ & SELF-TEST

After the lecture, participants are expected to read the CFA® source material as directed, followed by weekly self-tests designed to help evaluate mastery of that session's study materials.

INSTRUCTOR SUPPORT

Support is provided by the instructor either through an in-person meeting during scheduled office hours, by email, or by telephone.

REVIEW

Finally, each week, participants are expected to take time to review the key concepts from previous study sessions.
